

FRENCH FOR APRIL 2016 (Art Smart)

We have initiated the month with the beauty of the rainbow (*L'arc-en-Ciel*) and all that human imagination can create from this natural event.

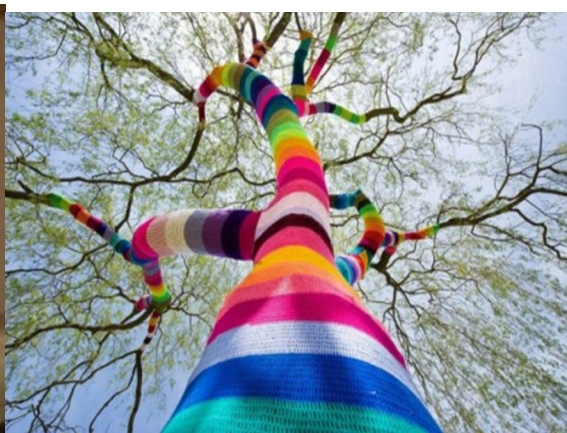

The colors are always the same and we repeated them in french.

Here are some examples of human creations :

Un arc en ciel humain !

Un arbre arc en ciel !

L'eau arc en ciel !

Un coeur arc en ciel !

Des cheveux arc en ciel !

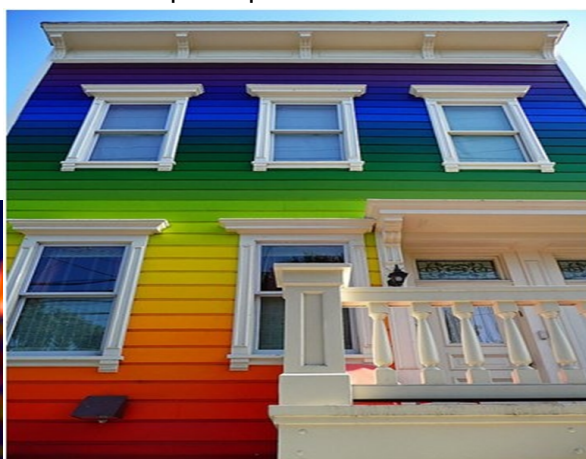

Un zèbre arc en ciel !

Des perroquets arc en ciel !

Un poisson arc en ciel !

Une maison arc en ciel !

The children have colored their own rainbow as they wished.

It was time to review the days of the week in French. But it's difficult to find something funny.

It is not very funny. But it introduces the name of the days in French.

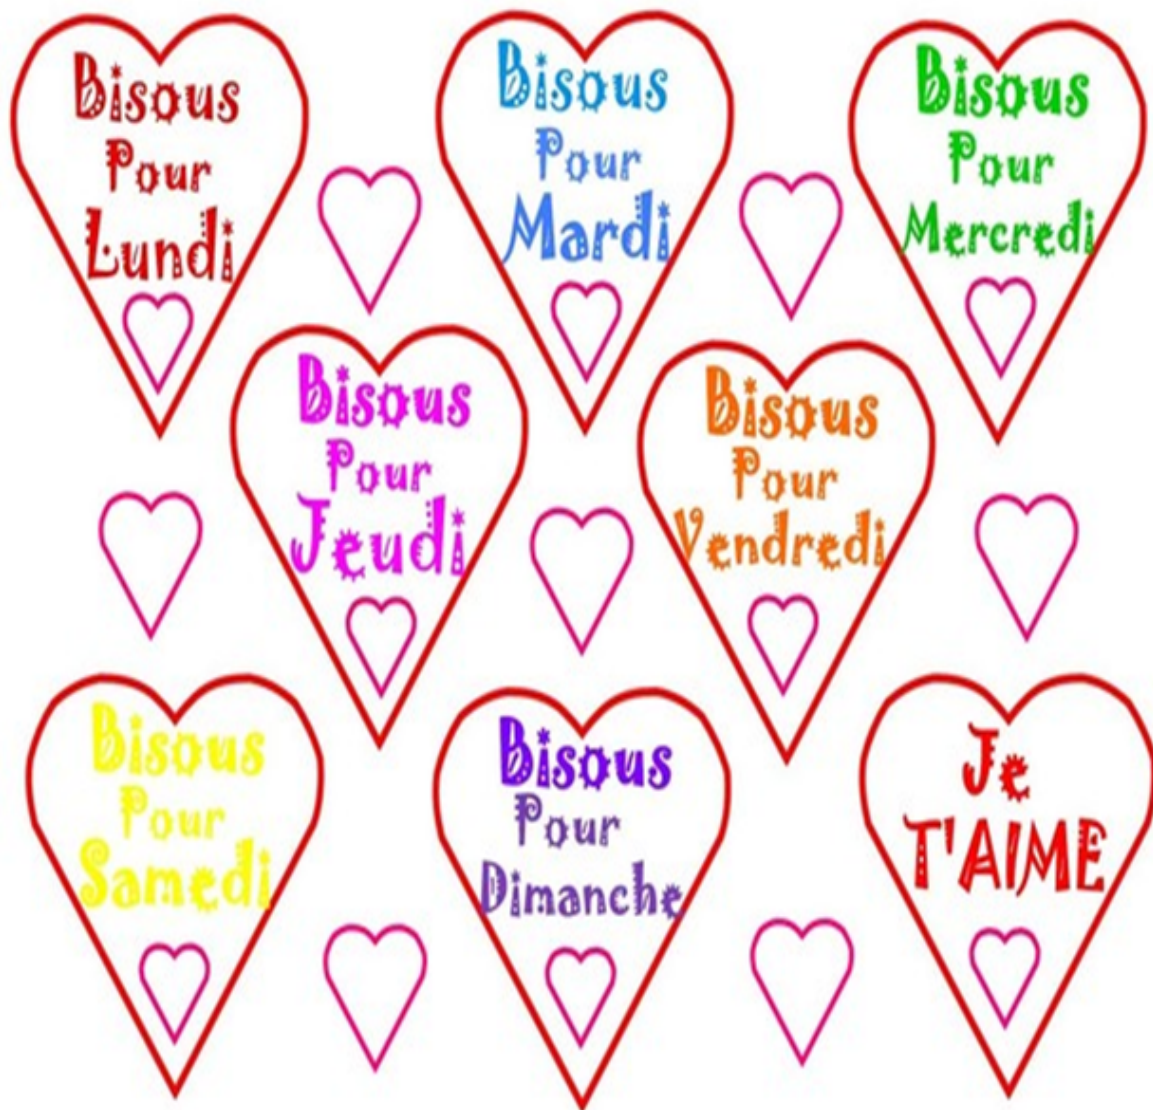

The songs are the best and the children love to try to sing, even it's difficult and a little complicate.

They loved this song (with canadian accent) :

Please your child : watch at home !

For you, Mother and Father, the little boys and girls loved to color "les bisous du jour" (kisses of the day) :
